Florida State University High School Dual Enrollment Recommended Course List

Updated 9/20/24

Students who qualify for High School Dual Enrollment (HSDE) at FSU may choose from courses on this list during registration if such courses are available at that time. This list does not constitute a promise of availability. Please note that course offerings vary by semester, so check Schedule Assistant or Class Search for availability. HSDE students may discuss other course options with their academic advisor; however, the following restrictions apply:

- No online sections of any course

- No physical education, recreation, or leisure courses

- No courses graded S/U or offered for fewer than 3 credits or as DIS (individual study)

- No specialized admission, limited availability, honors, or major-restricted courses

    - No courses taught by the English department (prerequisite ENC course is not available)
    - No BSC2010, BSC2011, CHM1045, CHM1046, or associated lab courses
    - No MAC1105

- No courses that duplicate credit or for which the prerequisite was not met

- No 4000-level or higher courses

Although you may discuss other available courses (that are not restricted from HSDE) with your advisor, the following pages identify the recommended courses by general education or subject area. Courses highlighted in yellow are a part of the 15-hour statewide general education core, which make them ideal for students who plan to attend a public college or university in Florida.
